Merck Innovation Cup   *April 11, 2022*

Merck KGaA
Frankfurter Str. 250
64293 Darmstadt, Germany

Application Merck Innovation Cup

Dear selection committee,

Dear hiring manager,

I am writing to apply for the position of Data Engineer at Paramount. I am a highly curious and motivated individual with 2+ years of working experience with Python. I have demonstrated ability to import, clean, transform, and aggregate data with the purpose of translating large data sources into meaningful datasets for decision making purposes. I am also familiar with data transfer methods/protocols such as APIs, feeds, S3, S/FTP, Google Cloud Storage, querying data out of data warehouses, snowflake, etc. In addition, I have some knowledge of AWS or GCP.

I would be a great fit for this position as I am able to develop and support new ingestion pipelines and expand upon existing processes to pull in new metrics/data needs based on business requirements. I am also able to troubleshoot failures, data delays, and data anomalies to ensure data accuracy. Furthermore, I am skilled in monitoring jobs and finding opportunities for efficiency in scheduling, dependencies, and functionality.

If you are interested in my qualifications and skills, please do not hesitate to contact me at [PHONE NUMBER] or [EMAIL ADDRESS]. Thank you for your time and consideration.

Sincerely, [YOUR NAME]

Sincerely,

Mark Zurbruegg
